

INDIA'S HOME DESIGN MARKETPLACE • 2026

FOR INDIA'S ARCHITECTS & INTERIOR DESIGNERS

Where homeowners meet the people who build their dreams.

A new marketplace built for India — connecting verified architects
and interior designers with homeowners across 30+ cities.

WHY WE EXIST

What if finding a great architect in India was as easy as finding a good restaurant?

A short note from the founder —

Right now, finding an architect or interior designer in India is broken. Homeowners scroll endlessly through **Justdial**, get spammed by ten random firms after one enquiry, or rely on a friend's friend's recommendation. The good designers are invisible online. The bad ones are everywhere.

Meanwhile, brilliant architects across India — people who pour years into beautiful work — sit waiting for the phone to ring. They don't have time to fight for SEO. They shouldn't have to.

Homeizz is the bridge between them. A clean, beautiful, India-first marketplace where verified professionals get discovered by homeowners who are ready to hire — across Mumbai, Bangalore, Delhi, Hyderabad, Pune, Chennai, and 25+ more cities.

We're not another listing directory. We're not a lead-resale operation. We're a place where your work speaks for itself — and the homeowner who likes what they see can reach out directly. No middleman, no commission on what you build, no spam.

This document explains exactly what we're building, why architects are joining, and how to be part of the first 100 firms featured at launch — for free.

— *Chirag Sharma*

Founder, Homeizz

THE REALITY TODAY

Indian homeowners can't find good designers. Good designers can't get found.

It sounds like a paradox. It's actually a discovery failure — and it's costing both sides time, money, and trust.

FOR HOMEOWNERS TODAY

It's chaos.

- ✗ Endless scrolling on Justdial & Sulekha
- ✗ Spam calls from 10 firms after 1 enquiry
- ✗ No way to verify portfolios or credentials
- ✗ No regional context — Vastu, climate, local style
- ✗ Most good designers don't even appear online

WHAT HOMEIZZ DOES

Discovery, fixed.

- ✓ Browse by city, style, budget — visual first
- ✓ Direct enquiries — only firms they choose
- ✓ Verified profiles, real portfolios
- ✓ India-aware: Vastu, regional styles, local cities
- ✓ Mobile-first — built for how Indians browse

FOR ARCHITECTS & INTERIOR DESIGNERS

A fair platform for serious work.

You don't need to be a marketer to get clients. You need a place where your portfolio is shown to homeowners who are actually ready to hire. That's all Homeizz is — done well.

01

Direct enquiries

Homeowners contact you straight from your listing. No middleman, no commission on projects you close, no resale of your leads to competitors.

02

Built for Google

450+ city & style landing pages already indexed. Show up when someone searches "modern architect in Bangalore" or "3BHK designer Pune."

03

Made in India

Mobile-first design, regional styles built in (Kerala Nalukettu, Goan Portuguese, Vastu-compliant), pricing in INR, support in your time zone.

How it works for you

1

Sign up free

Create your verified architect profile in 2 minutes — no credit card.

2

List your work

Upload photos, tag city & style, write a short brief. Your listings go live instantly.

3

Get enquiries

Homeowners browsing your city & style send you direct enquiries via the dashboard or WhatsApp.

4

Reply & close

Reach out, share quotes, close projects. Keep 100% of what you charge — no platform commission.

LIMITED LAUNCH OFFER

First 100 architects: 90 days free.

No credit card. No commitment. If we don't bring you a single qualified enquiry in 90 days, walk away — we'll part as friends.

PLANS AFTER YOUR FREE TRIAL

Pick what fits your firm. Cancel anytime.

No hidden fees. No commission on projects. No resale of your enquiries.
